DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 32-42 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,651,583 to Klingler et al.

Klingler et al. disclose a lumbar support that includes all the limitations recited in claims 32-42. Klingler et al. show a lumbar support having a frame member (Fig. 5) being flexible through a range of flexion and including upper and lower portions (Fig. 5), an adjustment device operatively engaged with the upper and lower portions of the frame member such that the adjustment of the adjustment device varies the flexion, and a plurality of tongue portions wherein at least two tongue portions 22 (Fig. 5) being disposed in opposite directions, oriented vertically, and defined by slots 21 (Fig. 5) in the frame member, the tongue portions 28 (Fig. 5) defined by slots of a combination of an open polygon and an open curve, the tongues have a tongue resilience remaining substantially unchanged throughout the range of flexion of the frame member, and the frame member has a variable resilience such that increased flexion stiffens variable resilience of the frame member. Please note that the tongues of Klingler et al. are of such thickness sufficiently oriented perpendicular to the horizontal, i.e. vertically oriented.

Conclusion

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
